

Strong Communities Start With You

Every day at Y facilities in Batavia, Warsaw and Medina as well as at Camp Hough and the YMCA's many school age and program delivery sites, hundreds of children, families, adults and seniors benefit from YMCA character development, childcare, programs and human services. Those who cannot afford services are not turned away because the YMCA's Scholarship Assistance Program is there to help. Consider how you might contribute to the YMCA in support of **Strong Communities**:

\$1,000 will help a family afford a school year's worth of After School programming

\$700 will sponsor a YMCA Family Membership, giving a family someplace to be a family

\$500 will help a single mom or dad with a YMCA Single Parent Family Membership

\$400 will give a child the "summer of a lifetime" at Camp Hough

\$200 will keep a senior active and fit through YMCA programs and services

\$100 will help a family and keep a child safe with a week of Summer Day Camp

\$50 will keep a young child safe by teaching them to swim

\$25 will get a preschooler and their parents in the pool for diaper dip

GLOW

2010 Strong Communities Campaign

2010 Strong Communities Campaign

The Genesee/Wyoming YMCA believes that the foundation of a successful community is built on the nurturing of its children, sustained by the strength of its families and enhanced by the care of its seniors. Towards these ends the YMCA focuses much of its volunteer, staff and physical resources in Genesee, Wyoming and Orleans Counties on these three vitally important groups.

Most importantly the YMCA and the benefits

it brings are available to all people, regardless of ethnic origin, religious affiliation or financial means. As an inclusive organization, the YMCA welcomes everyone regardless of their ability to pay. And so, the YMCA is reaching out for support of its charitable good works in the effort to build **Strong Communities**.

Please consider strengthening your community by making a contribution to this year's **YMCA Strong Communities Campaign**.

Seniors

The expectations of seniors are changing and the YMCA is changing too. The YMCA's fastest growing membership group counts on the Y to help keep them engaged, involved and healthy. Limited resources should not be a factor in the quality of one's life and so the YMCA helps turn back the hands of time so that seniors can feel as young as they act.

Families

More than ever, families need a place they can go and people they can count on. The YMCA provides a safe and caring environment for parents and children to enjoy each other and themselves. In difficult times like these the YMCA offers supervision, skills, life lessons and financial assistance to supplement and enhance the work of the family.

Children

Everyday the YMCA provides resources, role models and safe haven for hundreds of children across Genesee, Wyoming and Orleans Counties. Whether they are enrolled in one of the YMCA's many preschool or after school programs, participate in a nearly endless list of YMCA programs or enjoy the "summer of a lifetime" at YCamp, kids need the YMCA.
